

BEAMACE

THE DIGITAL LAYOUT MEASURING AND MARKING TOOL

With BeamAce you can easily measure and mark the layout for drilling, notches and parts to be welded on a beam or profile. BeamAce makes the layout measuring and marking process significantly faster, easier and more accurate than the traditional method, allowing annual savings of up to tens of thousands of euros in manufacturing costs.

BeamAce is easy and simple to use without long training or large initial investments.

- ✓ *Faster*
- ✓ *More accurate*
- ✓ *More efficient*
- ✓ *Easy-to-use*
